Mayor of  
Liverpool

## 11.00 - Connected Cities in Action

Several cities have already taken giant steps forward in their Connected City developments. Singapore is often cited as “taking the Smart City to the next Level”. New York City and their LyncNYC programme are touted as a new benchmark for city wide Wi-Fi deployments. Listen to these cities and their partners how they been able to take giant steps forward.

### Speaker

- Singapore Smart Nation, Khoong Hock Yun, Assistant Chief Executive iDA, Singapore

### Panel: Creating City Partnerships – New York City

- Al Jenkins, Deputy Commissioner, Department of Information Technology and Telecommunication, New York City
- *Colin O’Donnel, CIO or David Etherington, CSO, Intersection (invited)*
- Jeremy Schneider, CTO, Downtown Alliance

## 14.00 - Visions and Foundations for a Connected City – City Experiences.

WBA’s Connected City Advisory Board (CCAB) and the United Cities and Local Government (UCLG) Committee of Digital and Knowledge-based Cities are working towards the creation of a common vision, guidelines and blueprints on the development of efficient networks to support city services and boost local digital agendas.

Representatives from around the world will be sharing their experiences, lessons learned and future visions.

- Jamie Cudden, Smart City director, Dublin
- Francisco Rodríguez, IMI - Barcelona City Council
- Ian Jones, Solution Architect Smart Cities, Leeds City Council
- João Cassino, Coordinator of Connectivity and Digital Convergence of the City of Sao Paulo

## 15.30 - Creating Sustainable Models and Futureproofing the Vision

Public-private partnerships are not only key to long-term, sustainable business models but also provide the basis on which Smart Cities will be created and further advanced. This session will host cities, operators and technology providers to present how partnerships are developed and maintained.

- Vijay Sammeta, CIO, San Jose
- Miguel Gamino, CIO, San Francisco
- Michael Frank, Head of Corporate Strategy and Portfolio Management Department, Telekom Hungary
- Korea Smart City Vision, speaker to be confirmed, KT
- BT representative
- AT&T representative
